Latest G3000 Software installed

Avionics: Garmin® G3000™ integrated all-glass avionics system providing flight instruments, navigation, communication, lighting controls, traffic, terrain, weather, aircraft systems status and alerting, checklists and other functions. Three (3) Primary Flight Displays (PFDs) and Multi-Function Display (MFD) present flight instrument data and pilot-selectable information in a 40:60 ratio split screen. Dual Touchscreen controllers provide the primary point of access for the majority of all avionics data inputs and selection. The integrated avionics provides for enhanced situational awareness, functionality, ease of operation, and redundancy.

Verification of Equipment and Specification is the sole responsibility of the Purchaser.
